SECTION PROPERTIES: Worder vs Klaviyo

Clicar na borda da secao abre este painel — Klaviyo tem MUITO mais opcoes

WORDER ATUAL

KLAVIYO (COPIAR ISTO)

Klaviyo Section tem:

- [Styles] [Display] tabs
- Background image (+expandir)
- Content color: [Auto][Custom][None]
- Section color (+expandir)
- Border (+expandir)
- Padding com lock icon
- Column content alignment (top/center/bottom)
- Mobile stacking: R-to-L / L-to-R / No stacking

Worder so tem: Cor de Fundo + Padding + Empilhar

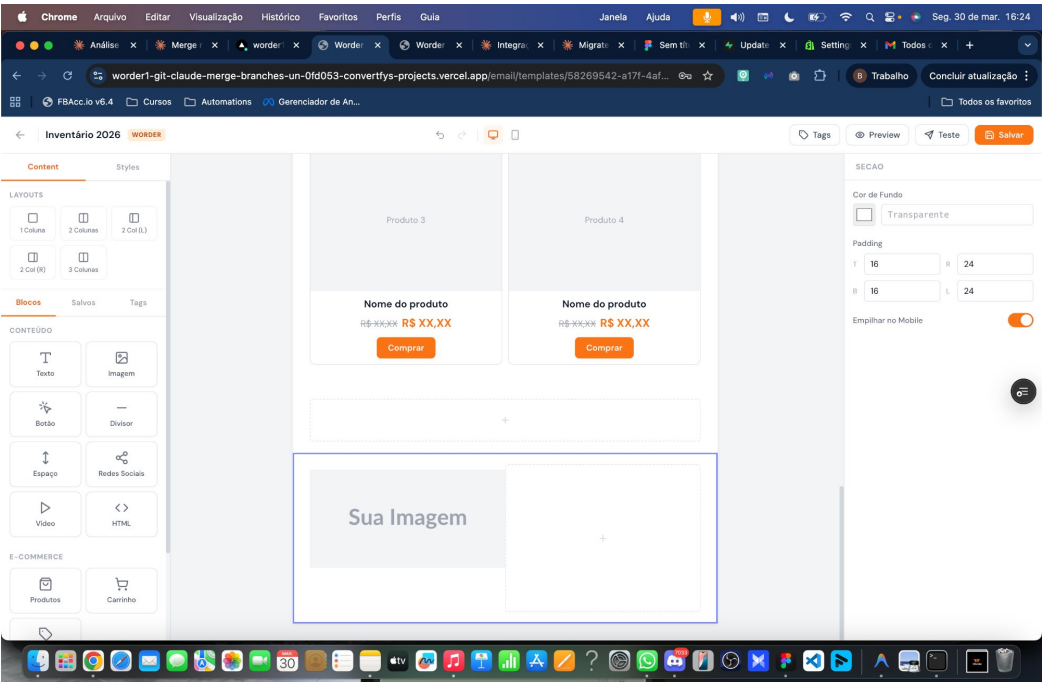

Falta: bg image, content color, border, alignment

Falta: tab Display com show/hide logic

COLUNAS: Problema Critico no Worder

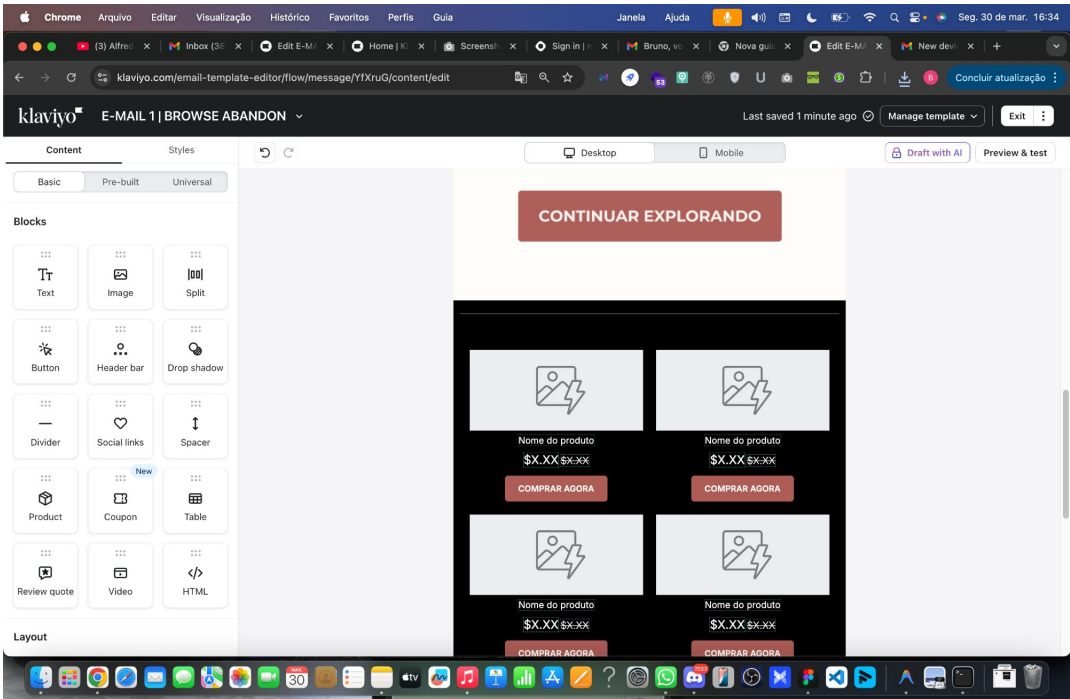

Na Klaviyo colunas sao funcionais com blocos dentro. No Worder colunas nao aceitam conteudo.

WORDER — Colunas quebradas

Coluna direita mostra '+' mas nao aceita blocos
Nao da pra arrastar texto/imagem/botao para dentro
Colunas sao decorativas, nao funcionais
Nao da pra deletar secao facilmente

KLAVIYO — Sections com blocos reais dentro

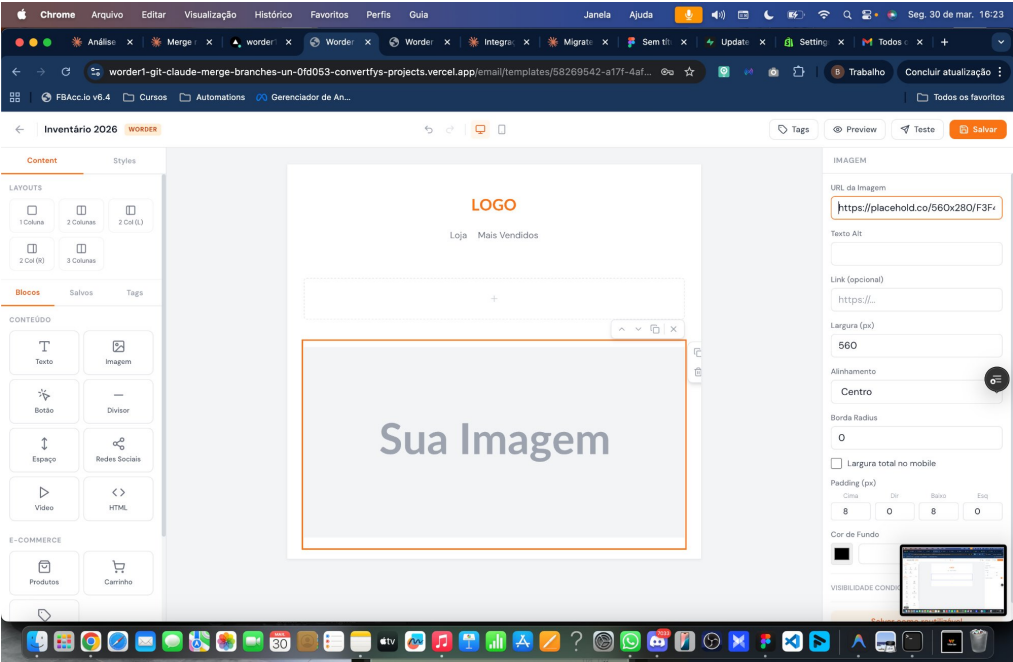

Cada secao contem blocos REAIS funcionais
Blocos sao arrastados PARA DENTRO das colunas
Product blocks dentro de sections com bg color
Toolbar flutuante: clone, star, remix, delete

IMAGE BLOCK: Worder vs Klaviyo

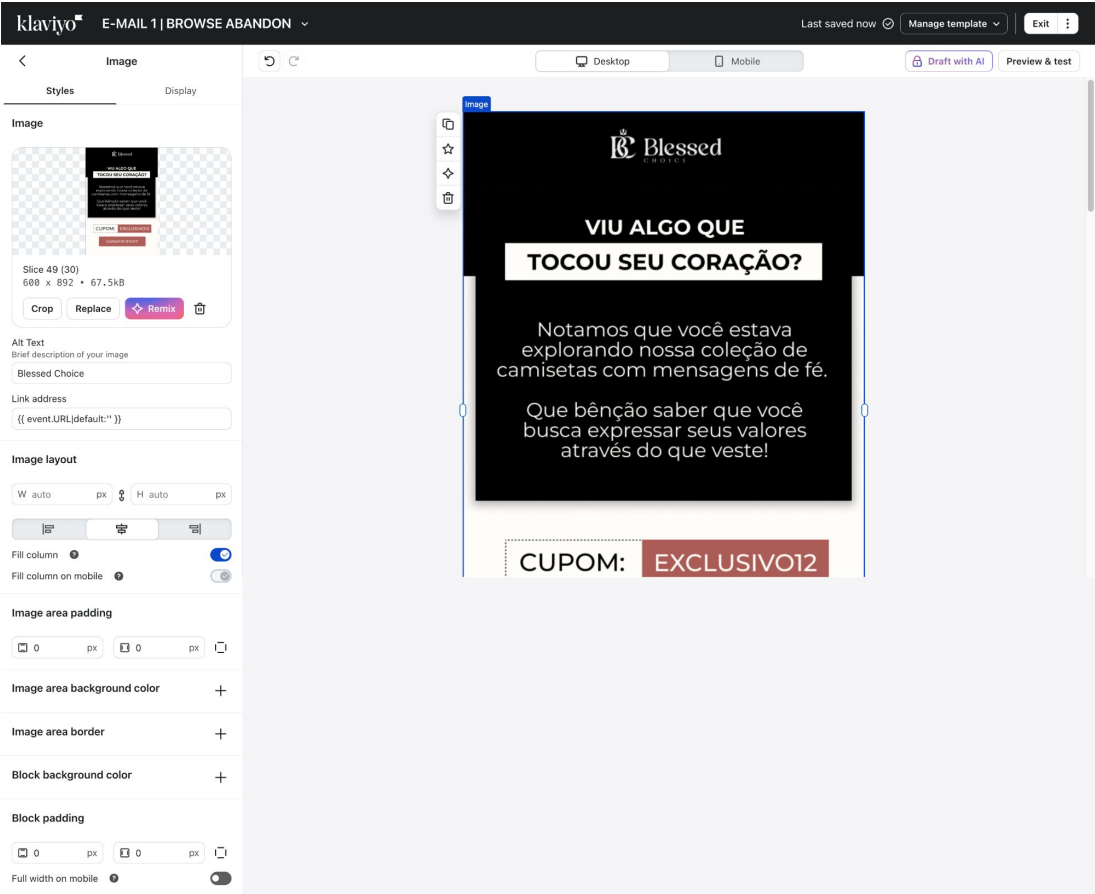

Klavivo tem preview thumb, Crop/Replace/Remix, Fill column, area bg/border expandiveis

WORDER ATUAL

- So tem: URL input, Alt, Link, Largura, Alinhamento
- Borda Radius, Full width mobile, Padding, Cor
- SEM preview thumbnail da imagem
- SEM upload de imagem (so URL manual)
- SEM Fill column toggle
- SEM Image area bg/border expandiveis
- SEM Block bg/padding separados
- SEM W x H com lock icon

KLAVIYO (COPIAR ISTO)

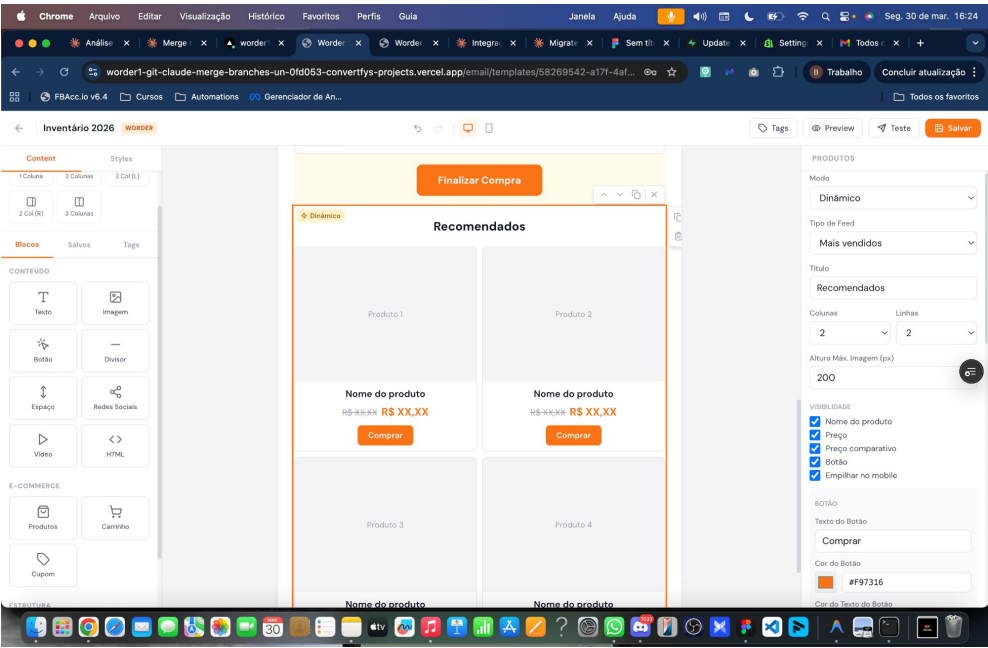

- Preview thumbnail com dimensoes e tamanho
- Crop, Replace, Remix, Delete botoes
- Alt Text, Link address (com merge tags)
- W x H com lock icon para proporcao
- 3 alignment buttons + Fill column + Fill mobile
- Image area padding, bg color, border (expandiveis)
- Block background color, Block padding, Full width mobile

PRODUCT BLOCK: Worder vs Klaviyo (CRITICO)

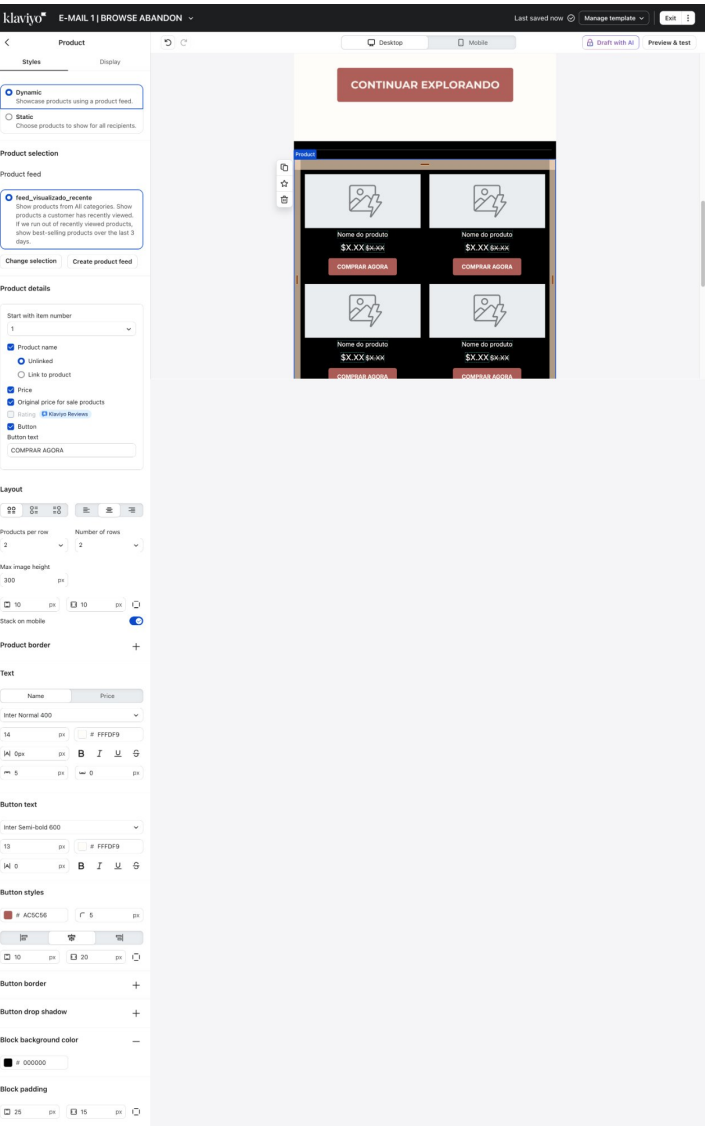

Klavio tem Dvnamic/Static, feed desc, checkboxes, tabs Name/Price, Button styles/border/shadow

WORDER ATUAL

- Tem basico: Mode, Feed, Title, Cols/Rows
- Checkboxes de visibilidade, Botao texto/cor
- MAS FALTA TUDO ABAIXO:
- SEM Product border expansivel
- SEM tabs [Name] [Price] com TextStyleFields
- SEM Button text style (font/size/color/B/I/U/S)
- SEM Button styles (cor, radius, alignment, padding)
- SEM Button border expansivel
- SEM Button drop shadow expansivel
- SEM Block background color
- SEM Block padding separado

KLAVIYO (COPIAR CADA DETALHE)

TEXT BLOCK: Worder vs Klaviyo

Klaviyo tem rich editor INLINE no canvas com toolbar flutuante. Worder nao tem bloco texto visivel.

WORDER — Texto nao visivel nos prints

No Worder atual, o bloco texto:

- Usa <textarea> com HTML bruto
- Mostra: <p>Escreva seu texto aqui.</p>
- Usuario precisa escrever HTML
- SEM toolbar de formatacao
- SEM bold/italic/underline/color/align
- SEM heading styles (H1-H4)
- SEM merge tag insertion

O QUE IMPLEMENTAR (copiar Klaviyo):

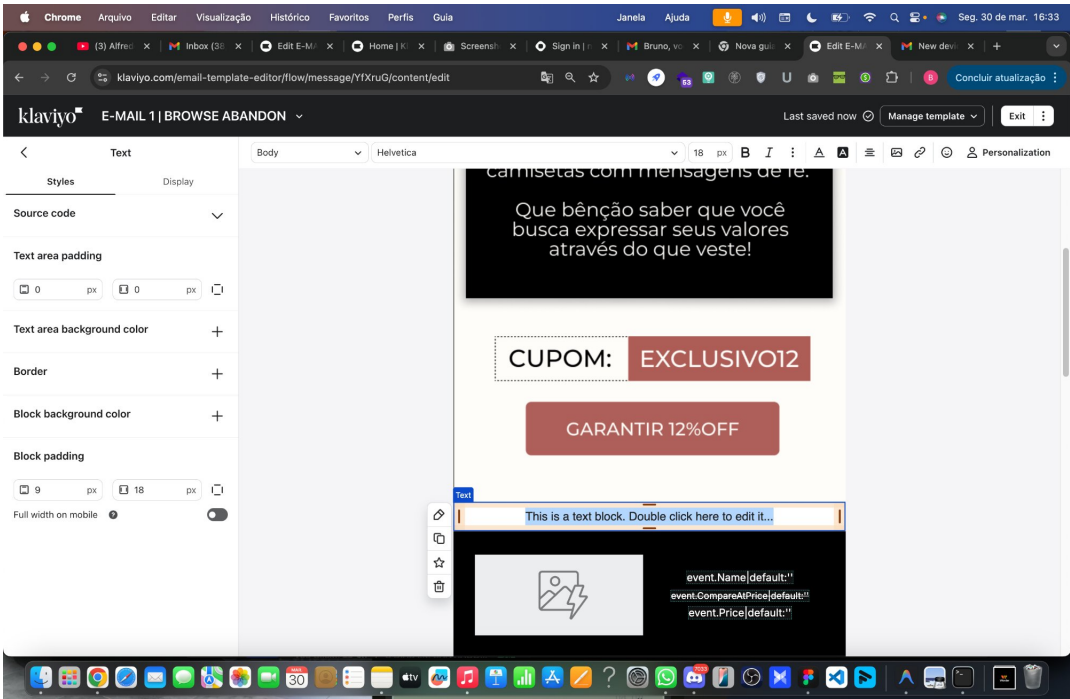

- TipTap rich text editor WYSIWYG
- Toolbar FLUTUANTE no topo quando texto selecionado:
- Style selector: Body/H1/H2/H3/H4
- Font family selector
- Font size (px)
- Bold, Italic, MoreOptions
- Text color, Background color
- Link, Image inline, Alignment
- Personalization (merge tags)

- No painel esquerdo (Styles tab):
- Source code (expandivel para ver HTML)
 - Text area padding
 - Text area background color (+expand)
 - Border (+expand)
 - Block background color (+expand)
 - Block padding
 - Full width on mobile

TEXTO EDITAVEL INLINE NO CANVAS:

- "Double click here to edit it..."
- Texto aparece direto no canvas
- Toolbar aparece ao clicar no texto

KLAVIYO (COPIAR ISTO)

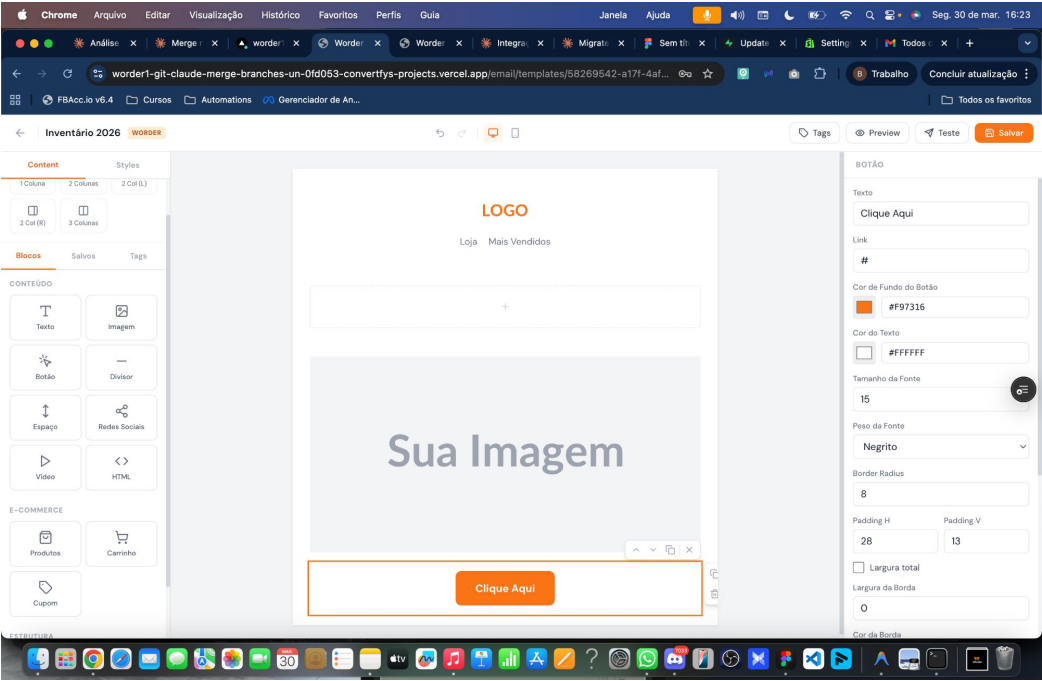

- Toolbar topo: Body | Helvetica | 18px
- B I ... | Text/BG color | Link | Align | Personalization
- Source code expandivel
- Text area padding/bg/border expandiveis
- Block bg/padding separados
- Full width on mobile toggle

PALETA: Worder vs Klaviyo Content Tab

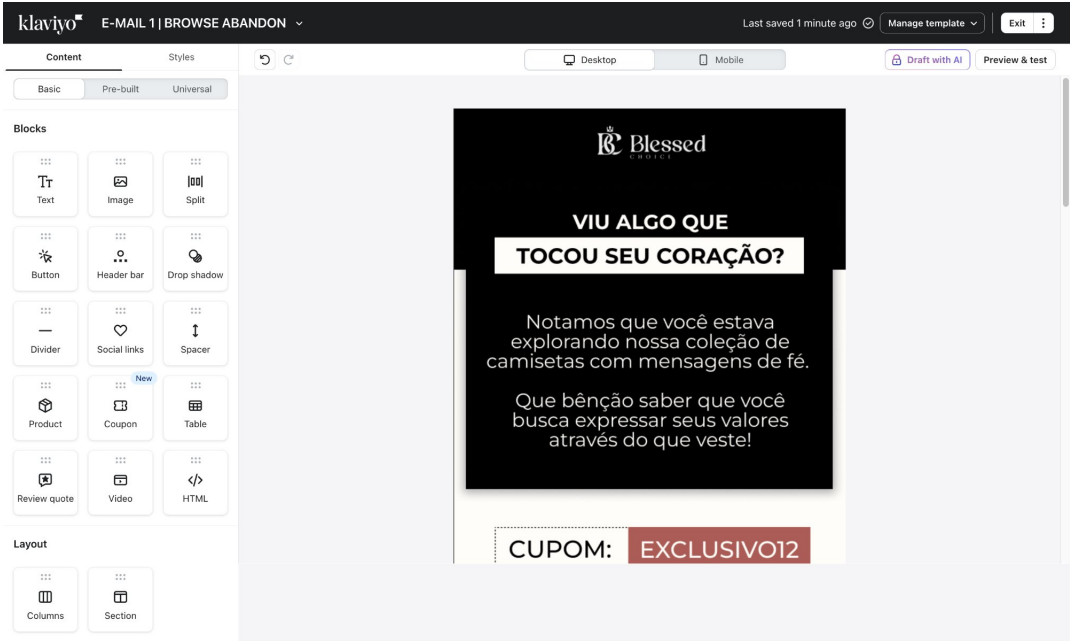

Klavivo tem Basic/Pre-built/Universal sub-tabs. Layout tem Columns + Section.

WORDER ATUAL

Tem Layouts + Blocos/Salvos/Tags — bom inicio
MAS layouts sao apenas 5 opcoes basicas
Falta sub-tab Pre-built (templates prontos)
Falta sub-tab Universal (conteudo reutilizavel)
Faltam blocos: Split, Header bar, Drop shadow,
Table, Review quote

KLAVIYO (COPIAR ESTRUTURA)

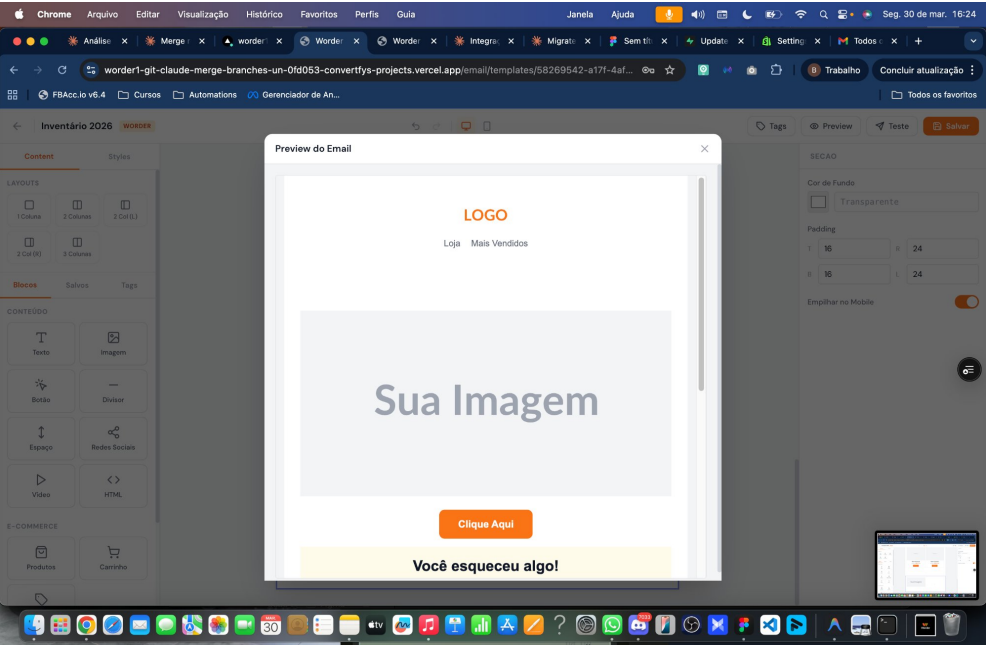

[Content] [Styles] tabs principais
[Basic] [Pre-built] [Universal] sub-tabs
Blocks: Text, Image, Split, Button, Header bar,
Drop shadow, Divider, Social links, Spacer,
Product, Coupon, Table, Review quote, Video, HTML
Layout: Columns + Section

PREVIEW: Worder vs Klaviyo Preview Mode

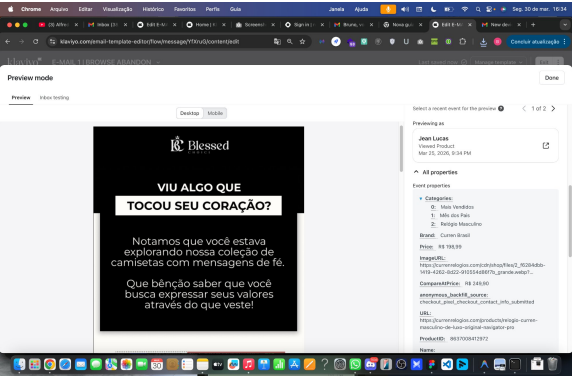

Klaviyo tem Desktop/Mobile toggle, Inbox testing, Event data sidebar com contato real

WORDER ATUAL

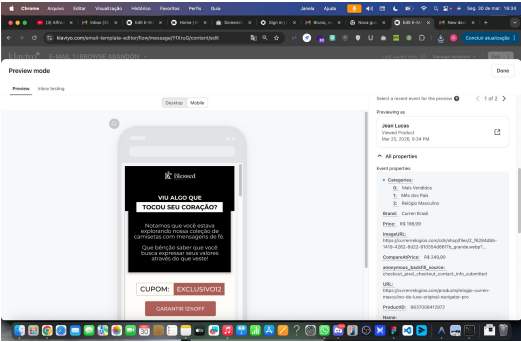

- Modal simples com iframe
- SEM Desktop/Mobile toggle
- SEM Inbox testing tab
- SEM Event data sidebar
- SEM contato real para preview
- SEM merge tags resolvidas

KLAVIYO Desktop

KLAVIYO Mobile

- Preview mode com [Preview][Inbox testing] tabs
- [Desktop][Mobile] toggle muda largura
- Sidebar direita: 'Select a recent event'
- 'Previewing as: Jean Lucas — Viewed Product'
- All properties: Categories, Brand, Price, ImageURL, CompareAtPrice, URL, ProductID
- Merge tags resolvidas com dados REAIS do contato
- Navegacao entre eventos: '1 of 2' com setas

DISPLAY OPTIONS: Klaviyo Show/Hide + Content Repeat

Tab Displav em cada bloco e secao — Worder nao tem nada parecido

WORDER ATUAL

No Worder atual:

Tem toggle "VISIBILIDADE CONDICIONAL" mas nao funciona e nao tem campos configurados.

SEM Show/hide logic builder

SEM Use code option

SEM Content repeat

SEM Device visibility per section

O QUE IMPLEMENTAR:

Tab [Display] em CADA bloco e secao

Visibility: info 'Device visibility is set on this block's section'

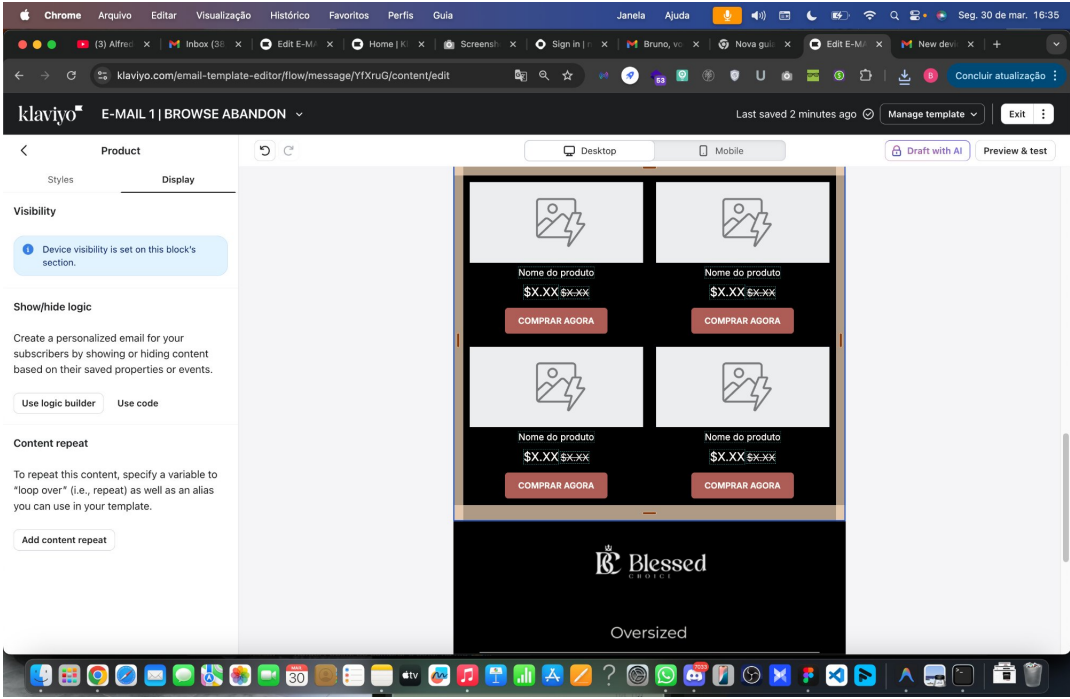

Show/hide logic:

[Use logic builder] — UI visual para selecionar campo, operador, valor
[Use code] — campo de codigo Liquid

Content repeat:

'Specify a variable to loop over'
[Add content repeat] botao

KLAVIYO Display Tab (COPIAR)

Tab [Styles] [Display] no Product block

Visibility: 'Device visibility is set on this block's section'

Show/hide logic com description e 2 botoes

Content repeat com description e botao

UNIVERSAL CONTENT: Klaviyo Saved Blocks/Sections Library

Sub-tab 'Universal' mostra blocos e secoes salvos com thumbnails e drag handles

KLAVIYO Universal Content (COPIAR)

Klaviyo Universal Tab mostra:

Lista de blocos e secoes salvos com:

- Nome (ex: 'PDT Axtron VERDE')
- Tipo (Product, Section, Table, Text)
- Thumbnail preview da aparencia
- Drag handle (6 dots) para arrastar
- Menu (3 dots) para rename/delete
- Search bar com filtros

Tipos de itens salvos:

- Product blocks (com estilos personalizados)
- Section completas (header, footer, hero)
- Text blocks, Table blocks

Ao arrastar para o template:

- Escolher 'Edit universally' ou 'Edit independently'
- Universal: mudancas propagam para todos os templates
- Independent: copia desvinculada

WORDER DEVE TER:

- Sub-tab 'Salvos' com lista identica
- Cada item: nome, tipo (block/section), thumbnail
- Drag handle para arrastar para canvas
- Menu com rename/delete
- Search e filtros por tipo
- Ao salvar: botao Star na toolbar do bloco/secao
- API: GET/POST/PUT/DELETE /api/email/saved-blocks

Klaviyo Content > Universal

Da screenshot do PDF Klaviyo:

- PDT Axtron VERDE — Product
- RP Axtron BRANCO — Section
- PDT Axtron BRANCO — Product
- RP Nivalé BRANCO — Section
- PDT Nivalé PRETO — Section
- PRT Nivalé BRANCO — Product
- RP Nivalé PRETO — Section
- DADOS DE RASTREIO - HOLA... — Section
- Block rastreio - HOLANDES — Text
- SECAO CART ABANDONED O... — Section
- SECAO DE PRODUTOS 2.0 OR... — Section
- SECAO CHECKOUT ORTHO — Section
- SECAO ORTHO ALIGN 2.0 — Table
- SECAO ORTHO ALIGN 1.0 — Section
- RODAPE ORTOALIGN AZUL 1.0 — Section

Cada um com thumbnail visual e drag handle.

Organizado por nome e tipo.

Busca e filtros disponiveis.

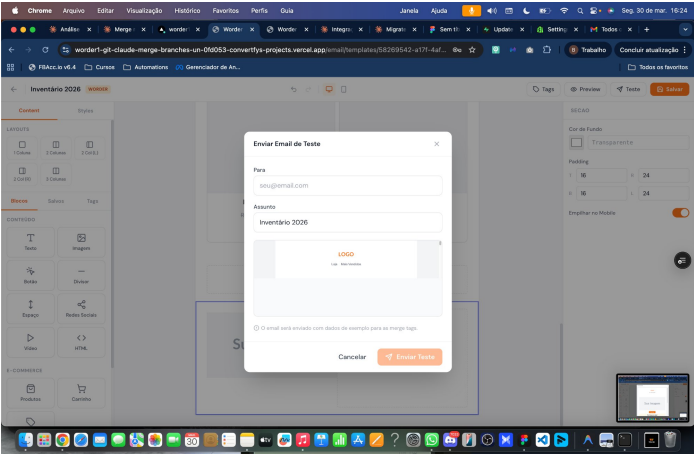

NOTA SOBRE NOMENCLATURA:

- Na Klaviyo: 'Universal content'
- Na Omnisend: 'Universal Layouts'
- No Worder: 'Blocos/Secoes Salvos'
- (Mesmo conceito, nomes diferentes)

SEND TEST + STYLES: Estado Atual vs Target

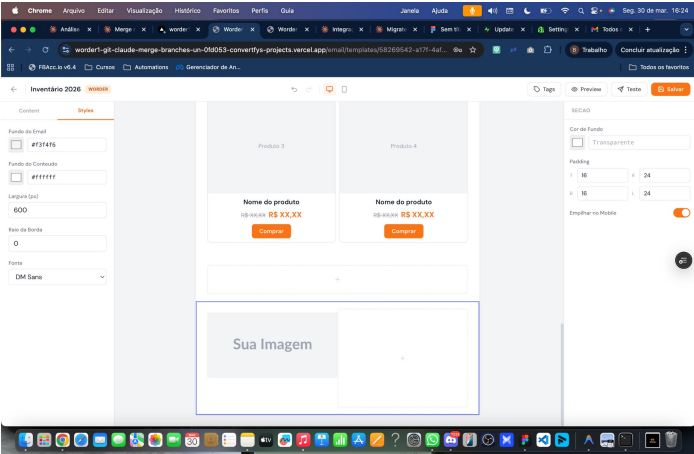

Send Test melhorou (tem modal). Styles ainda muito basico.

WORDER Send Test (melhorou!)

- Ja tem modal proprio (nao prompt!)
- Campo Para, Assunto, Preview mini
- Botao Enviar Teste
- Falta: loading state no botao
- Falta: Toast sucesso/erro (nao alert)
- Falta: validacao email visual

WORDER Styles (basico)

- So tem: bg email, bg conteudo, largura, raio borda, fonte
- FALTA: Text Styles (Body, H1-H4)
- FALTA: Link styles (cor, underline)
- FALTA: Button styles (Primary/Secondary)
- FALTA: Preheader text
- FALTA: Currency selector

KLAVIYO Styles (TARGET)

Klaviyo main Styles tab:

- Content background color
- Width (600px recomendado)
- Corner radius, margins
- padding, border

- Text & Headings:
 - Normal/H1/H2/H3/H4
 - Font, letter spacing
 - Line spacing, alignment
 - Size, weight, color

- Mobile optimization toggle
- Currency selector

- Links: color, underline
- Buttons: primary/secondary

IMPLEMENTAR no Worder:

- TextStyleFields para Body/H1-H4
- Link color + underline toggle
- Button Primary/Secondary com bg, text, radius, weight
- Preheader text input
- Currency: BRL/USD/EUR

CHECKLIST: Tudo que Copiar da Klaviyo

Use esta pagina para validar a implementacao

SECTION PROPERTIES (copiar Klaviyo Section)

- ☐ Tab [Styles] + Tab [Display]
- ☐ Background image (+expand) com format options
- ☐ Content color: [Auto][Custom][None]
- ☐ Section color (+expand)
- ☐ Border (+expand): width/color/style
- ☐ Padding com lock icon (sync 4 lados)
- ☐ Column content alignment: top/center/bottom (3 icons)
- ☐ Mobile stacking: Right-to-left / Left-to-right / No stacking
